

ClearSpend

The smarter way to control your business spending

Overview

ClearSpend is a free web and mobile app that gives Commercial Cards customers complete control of their account in real-time and lets employees check their balance on the go. ClearSpend works across all the major platforms; Android, iOS or through your web browser.

Benefits

- View transactions, including pending and declines
- Set cardholder limits
- Set cardholder merchant category blockings
- Lock and unlock an employee's card
- Create departments and segregate spend
- App for administrators and cardholders
- Download e-statements

Important Information

- The first ClearSpend user within a company will need to be an authorised signatory and their email address, and business mobile number, must be recorded on the Commercial Card account in order for them to register.
- Once registered, the authorised signatory can then invite additional users within their company to also use ClearSpend

Product Specifications

- Works on Android and iOS
