The interest rate applicable to your overdraft is agreed between you and your Relationship Manager/ Lending Team and will be specified in your overdraft facility letter. For further details on overdraft charges please see Section 5. In instances where a customer has an overdraft and simultaneously maintains a separate current account with a credit balance, the Bank may agree to set-off the debit and credit balances for interest purposes. In such cases set-off interest will be charged at a minimum of 1% per annum on the lesser of the debit or credit balances. Set-off interest is in addition to overdraft interest which will apply if there is a net debit balance. Payment of Interest on credit balances - the Bank will set the interest rate for the Account, where agreed, and will inform the Customer of that rate. The current interest rate for an Account is also available from the Bank on request. The rate of interest may be positive,

where the Bank pays you interest, or negative, where you pay interest to the Bank. Where the rate is 0% no interest will be applied.

Interest accrues daily on a 365 day year and is applied on cleared balances (after the deduction of tax if required) on Corporate Current Account and Business Current Account quarterly (at the end of March, June, September and December) at the rate set by the Bank or monthly where negative rates are applied.
